

Twin Rivers Plaster Rock

comments: Twin Rivers Plaster Rock (recently Fraser Papers) is serviced by the CN at the wapske site aproximately three miles from the lumbermill. Based on our current and forecasted rail shipments i expect to load between ten and twelve cars per week.

As our mill was down in months past we've experienced inconsistant switch service upon start up. At this time the flow of cars in and out has been very good and any of our concerns have been dealt with in a timely fashion.
