

LIST OF VEHICLES ADMISSIBLE FROM THE UNITED STATES

VERY IMPORTANT VERY IMPORTANT VERY IMPORTANT

TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES (RIV) CANNOT GUARANTEE THE ACCURACY OF THE INFORMATION CONTAINED IN THIS LIST (SUBJECT TO CHANGE WITHOUT NOTICE). VERIFY ADMISSIBILITY OF YOUR VEHICLE BEFORE YOU PURCHASE AT RETAIL LEVEL FROM THE UNITED STATES.

THE LIST IS BASED ON INFORMATION SUPPLIED TO TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES (RIV) BY VEHICLE MANUFACTURERS ON A VOLUNTARY BASIS. ITS ACCURACY CANNOT BE GUARANTEED, NOR CAN A GUARANTEE THAT ANY VEHICLE DEEMED ADMISSIBLE CAN BE SUCCESSFULLY MODIFIED TO MEET CANADIAN REQUIREMENTS. PLEASE CONTACT THE RIV AT 1-888-848-8240 OR VISIT THEIR WEB SITE AT www.riv.ca FOR DETAILED INFORMATION ON THE IMPORTATION PROCESS.

YOU MAY ALSO ACCESS THE LIST OF VEHICLES ADMISSIBLE FROM THE UNITED STATES ON THE INTERNET AT www.tc.gc.ca/roadsafety

EXPLANATIONS

Please read these explanations carefully before buying a vehicle in the United States

1. A U.S. specification vehicle is a vehicle designed, built, tested and certified by the **original equipment manufacturer (OEM)** to meet all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Where a U.S. specification vehicle is listed as ADMISSIBLE, and requires modifications, it may be extensive and expensive. Importers should determine the cost and extent of any required modifications before importing a vehicle into Canada. Vehicles that cannot be modified, for whatever reason, must not remain in Canada and must be exported. Where there is no information in this list concerning a U.S. specification vehicle, you must contact the manufacturer to determine its admissibility or inadmissibility. Manufacturers of U.S. vehicles are not legally obligated to respond to Transport Canada's requests for information on admissibility status or required to explain the reasons for inadmissibility, although some do. Transport Canada is not legally responsible for the accuracy and safety or cost implications of the information provided by OEMs.
2. Admissible vehicles, except competition vehicles, snowmobile cutters and all terrain vehicles (ATVs), must be certified by OEMs to all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Two criteria can be used to determine this:
 - a) a compliance label affixed to the vehicle at the time of main assembly with one of the following statements,
 - "This vehicle conforms to the applicable federal motor vehicle safety, bumper and theft prevention standards in effect on the date of manufacture shown above"; or
 - "This vehicle conforms to all applicable U.S. federal motor vehicle safety standards in effect on the date of manufacture shown above";
 - or
 - b) a letter from the original manufacturer and the final stage manufacturer (if applicable) containing the same information as would appear on the compliance label.
3. Vehicles that have been modified from their original state, other than regular maintenance, may not be eligible for importation into Canada. For example, a van transformed into a motorhome (often known as Class B motorhome), a van equipped with raised roof and/or modified interior, a pick-up or a passenger car equipped with lift kit, a motorcycle converted to a motor tricycle (trike), etc.
4. Some vehicles in SECTION 3 - Passenger Cars, SECTION 5 - Multipurpose Passenger Vehicles, and SECTION 12 - Trucks, are marked with either a) an arrow '>', or b) '[EIS]', or c) '>[EIS]', explained as follows:
 - a) an arrow '>' indicates that a vehicle will require modification to accommodate child tether anchorages (modifications may be extensive and expensive);
 - b) an '[EIS]' annotation indicates that the vehicle is either equipped with an electronic immobilization system installed by the manufacturer, but not certified to meet CMVSS 114, or that no electronic immobilization system is installed (please see paragraph 9 of these explanations for further information on immobilizers); and
 - c) an '>[EIS]' annotation indicates that the vehicle requires modification to the child tether anchorages and that some action is required on the immobilizer (see paragraph 9 for details). Where an arrow '>' and an '[EIS]' annotation are at the end of a group which lists models joined by a comma ',' or an ampersand '&' sign, all models in that group are affected by the arrow '>' and the letters '[EIS]'
5. U.S. vehicles originally equipped with air bags, as required by U.S. safety standards, must have operational air bags at the time of inspection by the Registrar of Imported Vehicles (RIV).
6. All admissible vehicles, including all types of trailers, must bear a 17 character alphanumeric sequence, as required by CMVSS 115

REVISED 2011/02/03

SUBJECT TO REVISION WITHOUT NOTIFICATION

E & O. E.

- Vehicle Identification Number (VIN), including snowmobiles manufactured after January 1, 2001 and restricted-use motorcycles (RUMs) manufactured after December 1, 2004. RUMs manufactured before December 2004 must have a VIN composed of between 14 and 17 alphanumeric characters, as required by CMVSS 115.

7. ACTIVE and U.S. PASSIVE RESTRAINT SYSTEMS - Passive restraint systems are identified as a motorized upper torso restraint or a door mounted 3-point restraint. The fact that a seat belt restraint system is considered to be active or passive does not in itself determine a vehicle's admissibility or inadmissibility into Canada. What does make this determination is whether or not that vehicle meets CMVSS 210 - Seat Belt Assembly Anchorages. Vehicles identified by their manufacturer as not meeting CMVSS 210 at the time of manufacture are not eligible for importation into Canada under any circumstances. No modifications are allowed to the seat belt anchorage system.

8. CONFIRMATION OF NO OUTSTANDING RECALLS - Confirmation that there are no outstanding recalls on a vehicle is a mandatory requirement for the RIV federal inspection program. This confirmation has to be sent to the RIV as soon as possible before, during or after the importation of a U.S. specification vehicle into Canada. The Inspection Form (Form 2) will only be released to the importer by the RIV upon receipt and acceptance of the confirmation of no outstanding recalls. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: http://www.riv.ca/english/html/recall_clearance.html. Submit your confirmation of no outstanding recalls to the RIV by e-mail at recall@riv.ca, or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

The symbol (#) indicates that the manufacturer will not issue a confirmation of no outstanding recalls for vehicles that were once declared "salvaged" in the U.S. Failure to produce this confirmation will result in a failed inspection; therefore rendering the vehicle inadmissible. Please contact your manufacturer in all cases to ensure that this confirmation can be issued.

9. ELECTRONIC IMMOBILIZATION SYSTEM - Every passenger vehicle, multipurpose passenger vehicle, truck and three-wheeled vehicle manufactured after September 1, 2007, with a Gross Vehicle Weight Rating (GVWR) less than 4,536 kg (10,000 lbs), except an emergency vehicle or a walk-in van, must be equipped with an electronic immobilization system, as per the requirements of CMVSS 114 - Theft Protection.

Electronic immobilizers typically require a special key or a small electronic device to start a vehicle's engine. This type of system, when activated, prevents the operation of the engine in response to any attempt to start the vehicle without using the authorized key, by shutting off one or more parts of the engine's electrical system. This might include the starter, ignition or fuel system.

Many manufacturers equip some or all of their U.S. market vehicles with electronic immobilization systems that meet the requirements of CMVSS 114, while in some cases these are available only as an option. There are also several U.S. market vehicles that are either not equipped with electronic immobilization systems, or that are equipped with electronic immobilization systems that do not meet the requirements of CMVSS 114. Here are three possible circumstances:

a) Electronic Immobilizers Installed as Original Equipment and Certified to CMVSS 114

Vehicles equipped with such systems do not require any special inspection or modifications. They are listed as admissible without any special annotation regarding the immobilizer.

b) Electronic Immobilizers Installed as Original Equipment but Not Certified to CMVSS 114

Vehicles that do not comply with CMVSS 114 will require confirmation of the presence of an electronic immobilizer at the time of the RIV federal inspection. They are listed as admissible with a special annotation ([EIS]) regarding the immobilizer.

Demonstration of the presence of an electronic immobilizer can be done through one of the following means:

- presentation of the completed vehicle purchase agreement showing the VIN and indicating the presence of an electronic immobilizer;
- presentation of the vehicle window sticker (Monroney label) showing the VIN and indicating the presence of an electronic immobilizer;
- a letter from the manufacturer showing the VIN and indicating the presence of an electronic immobilizer; and
- other type of information present on the vehicle or on the ignition key or fob allowing the positive identification of such a system.

c) No Electronic Immobilizers Installed

These vehicles will need to be fitted with an immobilization system that conforms to National Standard of Canada CAN/ULC-S338-98, entitled Automobile Theft Deterrent Equipment and Systems: Electronic Immobilization (May 1998), published by the Underwriters' Laboratories of Canada, before being presented for registration under the laws of a province. These are listed as admissible with a special annotation [EIS] regarding electronic immobilizers.

At the time of the required federal inspection at one of the RIV inspection stations, the importer must present the original invoice (and provide a copy to the RIV) confirming the installation of an electronic immobilizer compliant to CAN/ULC-S338-98, as mentioned above. The invoice must clearly indicate VIN, name and address of aftermarket installer, date of installation, and conformity of the system to CAN/ULC-S338-98.

Importers should be aware of the following **BEFORE** they purchase a vehicle in the U.S.:

- there is no guarantee that an aftermarket immobilizer can be fitted to a vehicle;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect a vehicle's warranty;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect the performance of certain safety equipment on a vehicle;
- certified installers of CAN/ULC-S338-98 aftermarket immobilizers may not be available in your local area;
- modifications may be complex and expensive; and
- importers enter the importation process at their own risk and Transport Canada assumes no liability.

Transport Canada does not endorse any brand of electronic immobilization systems or installers. More information on immobilizers and installers can be obtained by contacting the Vehicle Security Installation Bureau (VSIB) (<http://www.vsib.ca/index.html>), or the Insurance Bureau of Canada (<http://ibc.ca/>). Other organizations may also be able to supply information.

10. WARNING: Trailers with a Gross Vehicle Weight Rating (GVWR) of 4,536 kg (10,000 lbs) or more manufactured after September 1, 2007 - Every trailer with a GVWR of 4,536 kg or more manufactured after September 1, 2007, must be equipped with a rear impact guard that conforms to Section (3) of CMVSS 223 - Rear Impact Guard.

The only exceptions are:

- a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters;
- b) a low-chassis trailer; and
- c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.

Most trailers with a GVWR of 4,536 kg or more, sold at the retail level in the U.S. and manufactured after September 1, 2007, may not be equipped with a rear impact guard that conforms to Canadian requirements. Before you import a trailer, please make sure it is listed as ADMISSIBLE (see SECTION 11 of this document).

11. HOME-MADE TRAILERS - A home-made trailer is a vehicle that has been manufactured by the importer. A home-made trailer can be imported into Canada through the RIV federal inspection program.

12. DAYTIME RUNNING LAMPS - Before installing daytime running lamps on your vehicle, you should be aware that many vehicles purchased in the U.S. are already equipped with daytime running lamps. However, their inboard operating systems have not been activated. In many cases, the vehicle manufacturers' dealers are able to activate the daytime function.

13. IMPORTATION OF VEHICLES (15) YEARS OLD OR OLDER AND BUSES MANUFACTURED BEFORE JANUARY 1, 1971 - Vehicles fifteen (15) years old or older, as determined by the month and year of manufacture, and buses manufactured before January 1, 1971, are no longer regulated under the *Motor Vehicle Safety Act* by virtue of their age. While Transport Canada does not regulate the importation of these vehicles, it does not preclude the vehicles from having to meet provincial/territorial safety and licensing requirements. Importers of such vehicles are required to complete a Vehicle Import Form 1, at the time of importation, and present proof of ownership. Also, please contact the Canada Border Services Agency (CBSA) for clearance requirements.

14. Manual Transmission and Clutch Pedal (Vehicles manufactured after May first 2005 and newer only) - If a passenger car, multi-purpose passenger vehicle, truck or three-wheeled vehicle has a GVWR of 4 536 kg or less and is equipped with a manual transmission, it must not be possible to start the engine unless the clutch pedal is depressed or the drive train is otherwise disengaged. If it is possible to start the engine without the clutch pedal being depressed or with the drive train engaged, the vehicle will fail the RIV inspection.

SECTION (15)	THREE-WHEELED VEHICLES
SECTION (16)	WRECKED VEHICLES
	FURTHER INFORMATION

On April 12, 1995, a new *Motor Vehicle Safety Act* and revised Motor Vehicle Safety Regulations were proclaimed. The new Act allows vehicles originally manufactured in compliance with U.S. laws for the U.S. market to be imported into Canada, **provided they comply at the time of main assembly with mandatory Canadian Motor Vehicle Safety Standards (CMVSSs)**, such as CMVSS 210 - Seat Belt Assembly Anchorages. The new legislation makes it possible for a vehicle to be modified in certain areas (child restraint tether anchorages, daytime running lights, and some labeling requirements). To carry out the task of monitoring the importation of vehicles purchased at the retail level in the U.S., Transport Canada has contracted a company called the **Registrar of Imported Vehicles (RIV)** to establish and operate a system of inspection and compliance confirmation of imported vehicles. The program is a tightly controlled process of federal registration, inspection and verification, to ensure that a U.S. specification vehicle is confirmed compliant to all CMVSSs prior to provincial/territorial licensing and registration in Canada.

Some of the benefits of this program to Canadians are to:

- ensure the safety of vehicles on Canadian roads;
- allow vehicles that do not meet Canadian safety standards, in such areas as, daytime running lights, child restraint tether anchorages, and some labeling requirements, to be modified after they enter Canada;
- assist importers through a support system, including a bilingual public response service (1-888-848-8240);
- assist the Government of Canada to develop and maintain an accurate and comprehensive data base on such importations;
- assist Transport Canada in its enforcement efforts; and
- assist provinces and territories to enable checks of vehicles prior to licensing and registration in Canada, in compliance to federal safety standards.

Upon arrival at the border, importers must produce the vehicle's title, documents related to its purchase and a valid driver's license or passport.

There must be evidence - a Statement of Compliance (SOC) label or a manufacturer's letter - stating that the vehicle was built to comply, and complied to U.S. Federal Motor Vehicle Safety Standards (FMVSSs) at the time of main assembly. Importers must have the means of paying the RIV fees, customs charges and applicable taxes by Visa, MasterCard, AMEX, certified cheque or money order. A confirmation that there are no outstanding recalls on a vehicle or proof that the recall work has already been completed in the U.S. must be sent to the RIV as soon as possible before, during or after importation. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: http://www.riv.ca/english/html/recall_clearance.html. Send your confirmation of no outstanding recalls to the RIV by e-mail at recall@riv.ca, or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

The Registrar's fee is \$195.00 Cdn (plus GST) at Designated Ports and at Non-Designated Ports, in all provinces except Quebec, where the fee is \$195.00 Cdn (plus GST and QST). A list of Designated Ports follows this section. The importer is responsible for the actual costs of modifying the vehicle. There are also fees and charges resulting from failure to pass the initial inspection within 45 days.

SECTION 2 - GENERAL

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
All vehicles (except buses) FIFTEEN (15) YEARS OLD OR OLDER	All are admissible (see notes)		Importer must be able to prove vehicle is fifteen (15) years old or older, determined by month and year of manufacture.
Buses manufactured BEFORE January 1, 1971	All are admissible (see notes)		Importer must be able to prove bus was manufactured prior to January 1, 1971.
Buses manufactured AFTER January 1, 1971	See Notes	See Notes	Please see SECTION 6 - BUSES and SECTION 7 - SCHOOL BUSES
Pick-up trucks, trucks, car dollies, trailers (including air braked trailers, portable air compressors, log splitters and wood chippers, etc.), LESS THAN FIFTEEN (15) YEARS OLD.	<p>All trailers and trucks manufactured BEFORE September 1, 2007 are admissible.</p> <p>All trailers with a GVWR 4536 kg or less are admissible.</p> <p>For trailers with a GVWR more than 4536 kg and manufactured AFTER September 1, 2007, see Section 11, EXCEPT for the following trailers exempted from CMVSS 223 and that are ALL ADMISSIBLE INTO CANADA:</p> <p>(a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer); (b) a low-chassis trailer (i.e. horse / stock trailer, boat trailer); and (c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.</p> <p>All trucks with a GVWR more than 4536 kg are admissible.</p> <p>For trucks with GVWR of 4536 kg or less and manufactured AFTER September 1, 2007, see Section 12.</p> <p>GENERAL MOTORS: For recall clearance letter see NOTES column</p>	All vehicles that have undergone alterations other than typical repairs are inadmissible.	<p>See EXPLANATIONS section</p> <p>GENERAL MOTORS: GM advises to contact GM Vehicle Vintage Services group at 1-888-467-6853 (toll free) or 1-905-440-7689 (outside Canada) to obtain recall clearance documentation.</p>
Sport Utility Vehicles, Travel Vans, Conversion Vans and Disabled Access Vehicle Conversions	See Notes		There are numerous restrictions on these types of vehicles. Please read Section 5 carefully.
Kit Cars LESS THAN FIFTEEN (15) YEARS OLD (assembled or unassembled)		None are admissible	
Competition Vehicles	All models		Competition Vehicles are designed for use exclusively in closed-course competition. These

SECTION 2 - GENERAL (Cont'd)

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
			vehicles are exempt from the RIV program provided they: bear a label affixed by the manufacturer stating, in both official languages, that the vehicle is a competition vehicle and is for use exclusively in closed-course competition, or is accompanied by a signed declaration clearly indicating that the vehicle is a competition vehicle and is for use exclusively in closed-course competition. This signed declaration MUST come from a racing sanctioning body, i.e. FIA, AMA, CART, etc.

SECTION 3 - PASSENGER CARS

1995 MODELS OR NEWER

(See Section (2) General for vehicles fifteen (15) years old or older as determined by month and year of manufacture)

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
ACURA			SEE HONDA
ALFA ROMEO	2008 Alfa Romeo 8C Competizione 2009 Alfa Romeo 8C Spider	All other passenger car models are inadmissible.	See explanations section. There were no Alfa Romeo passenger car models built for the U.S. between 1995 and 2007.
ASTON MARTIN	1996 TO 2011 All models		See explanations section.
AUDI	1996 TO 2000 A4 Sedan, A4 Sedan Quattro> 1996 TO 2000 A6 Sedan, A6 Sedan Quattro> 1997 TO 2000 A8> 1998 TO 2001 A4 Wagon & Wagon Quattro> 2000 TT Coupe (see notes)> 1996 TO 2011 All other passenger car models except those listed in the inadmissible column	1996 AND 1997 A6 Wagon 1996 AND 1997 A6 wagon Quattro 1998 A6 Wagon & Wagon Quattro	See explanations section. VW of America has indicated that some 2000 TT models require replacement of seat backs for tether anchorage modifications (to comply to CMVSS 210.1). Importer should verify with VW of America before bringing a vehicle to Canada as modifications may be expensive.
BENTLEY	1996 TO 1999 All models built BEFORE September 1, 1999 (see Notes 1 and 2) 1999 TO 2011 All models built AFTER September 1, 1999 (see Notes 1 and 3) See explanations section.		Note 1: Bentley Canada informed Transport Canada that ALL modifications MUST be performed (and documented) by an authorized Bentley Canada dealer and must be completed before a recall clearance letter can be issued by Bentley Canada. Contact an authorized Canadian retailer for information on exact nature and costs of modifications required for U.S. Bentley vehicles. Note 2: Modifications may include: daytime running lights, child tether anchorage systems, metric odometer and speedometer labels. Note 3: Modifications may include: daytime running lights and metric odometer and speedometer labels.
BMW	1996 TO 1999 All models built BEFORE September 1, 1999 (see Notes 1 and 2) 1999 TO 2011 All models built AFTER		See explanations section. Note 1: BMW Canada informed Transport Canada that ALL modifications MUST be performed (and documented) by an

	<p>2007 TO 2011 Ford Mustang Shelby GT500 2009 Ford Mustang Shelby GT500KR 2007 and newer Ford Mustang Shelby GT and GT-H models</p> <p>2010 AND 2011 Mercury Grand Marquis [EIS] (see notes) 2010 AND 2011 Lincoln Town Car [EIS] (see notes) 1996 TO 2011 All other passenger car models, except those listed in the inadmissible column.</p>	<p>inadmissible.</p>	<p>Mercury / Lincoln vehicles have a configurable lighting system module that can be reconfigured to enable Canada Motor Vehicle Safety Standard 108 compliant day time running lamps. This service can only be performed by an authorized Ford or Lincoln dealer in Canada.</p>
<p>GENERAL MOTORS / SATURN</p>	<p><u>CHEVROLET</u> 1997 AND 1998 Cadillac Catera (if last eight characters of VIN are WR083596 or higher, child tether anchorage modifications are not required).> 1996 TO 2008 All other General Motors / Saturn passenger car models (if built AFTER September 1, 2007 [EIS] (see Note 1)), except those in inadmissible column. 2008 Aveo (without option code BAH, [EIS] (see Notes 1 & 2))</p> <p>2008 Chevrolet Aveo (without option code BAH, [EIS] (see Notes 1 & 2)) 2008 TO 2010 Saturn Astra</p> <p>2008 TO 2010 Pontiac G8 2009 Chevrolet Aveo (without option code JM4, [EIS] (see Notes 1 & 2)) 2009 Pontiac G3 (without option code JM4, [EIS] (see Notes 1 & 2)) 2010 Chevrolet Aveo (without option code BAH, [EIS] (see Notes 1 & 2)) 2010 Pontiac G3 (without option code BAH, [EIS] (see Notes 1 & 2))</p> <p>2010 Vibe (without option code BAE, [EIS] (see Notes 1 & 2)) 2009 AND 2010 All other GM/Saturn models 2011 All models [EIS] See note 1</p>		<p>See explanations section.</p> <p>The following vehicles are admissible, if equipped with power or manual seat back recliners for both driver and front seat passenger positions. If not, seats must be replaced with a reclining seat at both front seat positions.</p> <p><u>BUICK</u> 1996 Century sedan and wagon</p> <p><u>OLDSMOBILE</u> 1996 Cutlass Ciera sedan and wagon</p> <p><u>PONTIAC</u></p> <p>CLEARANCE RECALL LETTER: GM requires that importers contact GM Vehicle Vintage Services group at 1-888-467-6853 (toll free) or 1-905-440-7689 (outside Canada) to obtain recall clearance letters.</p> <p>Note 1: [EIS] See explanations section, paragraphs #4 and #9.</p> <p>Note 2: BAE, BAH and JM4 option codes are identified on the Service Parts label in glove box. Most U.S. GM vehicles (except Chevrolet Aveo, Pontiac Vibe and Saturn Astra) may be equipped with a switch that can turn off the Daytime Running Lamps (DRLs) while vehicle is in motion. In Canada, DRLs must be permanently on once vehicle is in motion. The DRL control system of your vehicle may need to be reprogrammed to neutralize switch that permits turning DRLs off. For more information, please contact your GM dealer.</p>
<p>GEO</p>	<p>1996 AND 1997 Metro 1996 AND 1997 Prizm 1997 All models</p>	<p>All other Geo passenger car models are inadmissible.</p>	<p>See explanations section.</p> <p>Production of GEO passenger cars was discontinued after model year 1997.</p> <p>1998 AND NEWER MODELS ARE GENERAL MOTORS PRODUCTS.</p> <p>Vehicles equipped with passive restraints do not meet CMVSS 210, Seat Belt Anchorage location requirements. Passive restraints are identified as either a motorized upper torso restraint or a door mounted 3-point restraint.</p>

SECTION 3 - PASSENGER CARS (Cont'd)

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
HONDA / ACURA	1996 TO 2008 All models 2009 TO 2011 All models [EIS] See Notes		See explanations section. [EIS]: See explanations section, paragraphs #4 and #9.
HYUNDAI	1996 TO 2009 All models. If built AFTER September 1, 2007 [EIS] see notes. 2010 All models 2011 All models [EIS] See notes		See explanations section. [EIS]: See explanations section, paragraphs #4 and #9.
ISUZU			See explanations section. Production of Isuzu passenger cars was discontinued after model year 1993.
JAGUAR	1996 TO 2011 All models (see notes)		See explanations section. The manufacturer informed Transport Canada that ALL modifications MUST be performed (and documented) by an authorized Jaguar Land Rover Canada retailer before a recall clearance letter can be issued. Contact an authorized Canadian retailer for information on exact nature and costs of modifications required. Possible modifications: daytime running lights, child tether anchorage systems, metric odometer and speedometer labels. To locate a dealer go to: http://www.jaguar.ca (select your language preference and click on "locate a retailer"). DAY TIME RUNNING LAMPS: U.S. sold Jaguar vehicles have a configurable lighting system module that can be reconfigured to enable CMVSS 108 (day time running lamps). This service can only be performed by an authorized Jaguar dealer in Canada.
KIA	2000 Sephia> 2001 Sephia 2002 TO 2007 Spectra 2001 TO 2007 Rio 2001 TO 2007 Magentis / Optima 2004 TO 2006 Amanti 3.5L 2007 AND 2008 Amanti 3.8 L 2007 AND 2008 Rondo, if built after September 1, 2007 [EIS] (see notes) 2007 AND 2008 Rio, if built after September 1, 2007 [EIS] (see notes) 2007 AND 2008 Spectra, if built after September 1, 2007 [EIS] (see notes) 2007 AND 2008 Magentis / Optima, if built after September 1, 2007 [EIS] (see notes) 2009 TO 2011 All models [EIS] See Notes	All other Kia models are inadmissible	See explanations section. [EIS]: See explanations section, paragraphs #4 and #9.
LAMBORGHINI	1999 TO 2011 From September 1, 1999: All models (see Note 1). For vehicles built after September 1st, 2007 [EIS] See notes	All other models	See explanations section. Note 1: Lamborghini Canada requires that importers contact Lamborghini Canada to determine exact nature and costs of modifications. Modifications vary by year and model and may be expensive. Possible modifications may include: daytime running lights, electronic immobilization system, metric odometer and speedometer labels. All modifications must be performed (and documented) by an authorized Canadian Lamborghini retailer and must be completed before a recall clearance letter can be issued by Lamborghini Canada.

SECTION 3 - PASSENGER CARS (Cont'd)

SECTION 11 - ALL TRAILERS (see exceptions) WITH A GVWR OF 4 536 KG OR MORE, MANUFACTURED AFTER SEPTEMBER 1, 2007, MUST BE EQUIPPED WITH A REAR IMPACT GUARD (RIG) THAT CONFORMS TO SECTION (3) OF CMVSS 223 - REAR IMPACT GUARD. See explanations section, paragraph #10.

THE EXCEPTIONS ARE:

- (a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer);
- (b) a low-chassis trailer (i.e. horse / stock trailer, boat trailer); and
- (c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.

Most trailers with a GVWR of 4,536 kg. or more sold at the retail level in the U.S. and manufactured after September 1, 2007 may not be equipped with a rear impact guard that conforms to Canadian requirements. The following is a list of manufacturers who have demonstrated compliance to CMVSS 223, Rear Impact Guard.
